<b>Resolution:</b>	
<b>Description</b> Mapping of question QT 1.3.1 (If precise area is not known, indicate approximately) and QCAT 3.5 (If the Technology is evenly spread over an area, indicate approximate area covered).  The option to select approximate area in QCAT is only available if question "Specify the spread of the Technology:" is answered with "evenly spread over an area". A mapping of the approximate area requires a tick of this question.  <b>Question:</b> Automatically check "evenly spread over an area" in QCAT if there is an approximate area is selected in old QT?
