Target version:	QA and QT migrated	Spent time:	0.00 hour
Resolution:			
Description			
In QT 2.3.1, it is possible to select multiple date ranges (< 10 y ago, 10-50 y ago, > 50 y ago). In QCAT 2.6, only one value can be selected.			
Only QT values with rank 1 (important) are imported. This leaves 8 Questionnaires with more than 1 date range.

Update:

Mats mapped the values. He will update the Questionnaires directly in QT so it should then run smoothly through the script.

#3 - 16 Sep 2016 11:24 - Mathias Gurtner

- Status changed from New to Closed

Hab es in der alten WOCAT DB angepasst.
