

## QCAT - Task #1047

### Image file type: TIFF

08 Sep 2016 07:58 - Lukas Vonlanthen

|  |                    |                        |             |
|--|--------------------|------------------------|-------------|
| <b>Status:</b>   | Closed             | <b>Start date:</b>     | 08 Sep 2016 |
| <b>Priority:</b>   | Normal             | <b>Due date:</b>       |             |
| <b>Assignee:</b>   | Mathias Gurtner    | <b>% Done:</b>         | 0%          |
| <b>Category:</b>   |                    | <b>Estimated time:</b> | 0.00 hour   |
| <b>Target version:</b>   | QA and QT migrated | <b>Spent time:</b>     | 0.00 hour   |
| <b>Resolution:</b>   |                    |                        |             |
| <b>Description</b>   |                    |                        |             |
| QCAT currently only allows image formats JPG, PNG, GIF.                            |                    |                        |             |
| In old QT, there are 3 photos and 1 technical drawing in TIFF, all for T_MOR015fr. |                    |                        |             |
| Should we open up (maybe only temporarily) to allow TIFFs as well?                 |                    |                        |             |

### History

#### #1 - 08 Sep 2016 09:06 - Kurt Gerber

My **strong** opinion:

For God's sake: No!

As it concerns only one case: WOCAT secretariat should manually convert and replace the images.

To be discussed with Mats.

#### #2 - 08 Sep 2016 10:37 - Lukas Vonlanthen

- Assignee changed from Kurt Gerber to Mathias Gurtner

Decision:

Someone from WOCAT converts the images to JPG

#### #3 - 16 Sep 2016 11:20 - Mathias Gurtner

- Status changed from New to Closed

Ist erledigt: Deborah hat die betroffenen files konvertiert.
