Category:	Estimated time: 0.00 hour
Target version: QA and QT migrated	Spent time: 0.00 hour
Resolution:	
Description	
<p>When mapping QT 2.5.1.1 Type and layout of agronomic measures to the comment section of QCAT 4.2 Technical specifications/ explanations of technical drawing, it says to use the selected category as subtitle.</p> <p>Subtitles are not possible for textarea fields. I tried to use only simple line breaks to indicate a block of information and used an introduction text "Agronomic measure: " to give some context.</p> <p>Is this ok?</p> <p>Screenshot from T_BEL002</p>	

History

#1 - 13 Sep 2016 12:15 - Lukas Vonlanthen

- Description updated

#2 - 22 Sep 2016 16:38 - Lukas Vonlanthen

- Status changed from New to Resolved

Blocks ok for now. Remove "Agronomic measure: " in front of first line.

#3 - 26 Sep 2016 11:18 - Lukas Vonlanthen

- Status changed from Resolved to Closed

Done. However, I left the "Agronomic measure: " prefix for the "other" values.
