Super Users have now the following 'super powers':

- They can view and edit all cases independently of their status and ownership (compiler).
- They can delete cases.

Deletion of cases:

- Deletion means a deletion of a single version (public oder draft version).
- To delete a case with several versions, all versions have to be deleted one after the other. But we think this will be very rare case..
- Deletion doesn't really delete the case, it just makes it 'invisible'. That is important! A restore will just be to change 'flag' in the database...
- Compilers could already delete a their draft version. That is still the case.
- Only super users have the right to delete cases. Reviewers not. We think, this is a more secure approach.

#4 - 26 Jan 2017 15:15 - Nina Lauterburg

Bei mir funktioniert das Löschen weder auf qcat.wocat.net noch auf qcat-dev.wocat.net. Benutze ich eine falsche URL?

#5 - 26 Jan 2017 15:21 - Lukas Vonlanthen

Ich habe da noch einen kleinen Fehler entdeckt. Bin dran. Wäre aber sowieso erst auf dem Dev-Server.

#6 - 02 Feb 2017 10:01 - Lukas Vonlanthen

Das Problem sollte nun behoben sein. Bitte auf qcat-dev.wocat.net nochmals testen. Merci!
