##### #5 - 16 Apr 2015 11:48 - Kurt Gerber

- Tracker changed from Feature to User Story
- Subject changed from Versioning to Store and show different versions of a case

#### Problem:

If every single editing of a case in edit-mode (before approval) creates a new version. It will many versions and makes the approval process much more complex.

#### Solution:

Only the approval of an edited case creates a new version. The version history will therefore show a list of former approved versions.
