Tried these packages:

- wasyprint
- reportlab
- django-easy-pdf
- wkhtmltopdf (django-wkhtmltopdf and python-pdfkit)

All of them fail to print a proper pdf as of now, or result in application errors. wkhtmltopdf seems the most promising package, pdfs can be created with the command line tool. The error occurs due to a problem in the markup with 'file:///<...>/app.css'
