Description

Acceptance Criteria

- Kleinere Info-Kästli könnte man ganz darstellen, nicht dass man bei jedem Kästli auf „See more“ drücken muss und dann teilweise nur noch 2 Wörter mehr folgen. Nur lange Texte abkürzen.
- Maybe: if 'show more' string is only n (20?) chars longer than initial string, always display full string.
- Mouse-over funktioniert nicht immer, v.a. wenn man statt auf den Text auf den Info-Button klickt oder den Cursor auf den Info-Button hält. --> Maybe: expand element which triggers show more?

History

#1 - 14 Apr 2016 10:52 - Sebastian Manger

- Description updated

#2 - 14 Apr 2016 15:41 - Kurt Gerber

- Target version set to QCAT Core for UNCCD Testing

#3 - 18 Apr 2016 15:46 - Lukas Vonlanthen

- Status changed from New to Closed

- There is a configuration option ("form_options": {"helptext_length": 1000}) which allows to overwrite the default length (30 words) of the helptext visible before the "Add more" button. I adjusted some of the shorter helptexts, use the configuration option in case I missed some.
- Mouseover for tooltip helptexts did not work properly for the SVG icons in Firefox, this was fixed.
