Description

in QCAT the initial list of instituions is taken from typo3.

The list should be cleaned-up before export with the tools developed by Michel Baeriswyl.

This has to be done by WOCAT Team.

Discussion with Nina on June 9:

- WOCAT team may not be able to clean the entire list (~940 institutions) before productive release (end of June)
- The question to select institutions is "Name of the institution which funded the documentation/ evaluation of the Technology (if relevant):"
- Only a small subset of all institution will be selected
- Maybe **pragmatical solution**: Manually copy (enter in Django Admin) the cleaned entries of the ~30 most likely used institutions (the ones known to currently enter data)
- Users can still write a mail to WOCAT secretariat if they do not find their institution
- Clean up of entire list of institutions can be done later
